PROFESSIONAL SUMMARY

Cybersecurity Analyst candidate and Computer Science Engineering student with 4+ years of hands-on technical troubleshooting experience and project work in endpoint security, threat intelligence, and network security. Skilled in Python, YARA, MITRE ATT&CK, Nmap, Wireshark, Burp Suite, and Linux. Engineered an endpoint security platform that analyzed 30,000+ Windows files using 10,759 YARA rules while maintaining a false-positive rate below 0.1%.

EDUCATION

Chitkara University

2024 - 2028

B.E. Computer Science Engineering | CGPA: 8.34

Coursework: Network Security, Cryptography, Operating Systems, DSA, OOP/C++

TECHNICAL SKILLS

- **Cybersecurity:** YARA, static malware analysis, entropy analysis, heuristic detection, MITRE ATT&CK, threat intelligence, network security, prompt-injection testing, data-leakage testing, cryptography
- **Security Tools & Labs:** Nmap (host discovery, SYN/UDP scans), Wireshark (TCP/DNS/TLS/HTTP), Burp Suite (MITM), Aircrack-ng (WPA2 lab), VirusTotal, AlienVault OTX, AbuseIPDB, TryHackMe (6 rooms)
- **Networking:** TCP/IP, DNS, DHCP/dnsmasq, firewall, subnetting, routing, HTTP/TLS, packet analysis
- **Systems & Cloud:** Linux (Fedora, Arch), Windows APIs, Kubernetes (Deployments, Services, NetworkPolicies; Minikube, AKS), embedded systems, hardware/software diagnostics
- **Programming / Dev:** Python, C++, Java, JavaScript, Bash, HTML, FastAPI, REST APIs, React, Node.js, SQLite, Git
- **ML / Data:** TensorFlow, Keras, SHAP, NumPy, Streamlit, Plotly

PROJECTS

CRASHAGENT AI | AI Agent Security Testing Framework (Prototype)

Sep 2026 - Present

- Architected a 31-scenario adversarial LLM-agent test suite (17 adapted, 14 authored) for prompt injection, data leakage, privilege escalation, and policy bypass across chat, email, and voice.
- Created deterministic evaluators and a synthetic tool sandbox; connected OpenRouter/Groq for hosted-model tests and harm/leak reports. One run surfaced 5 failures, including synthetic customer-data and internal-endpoint disclosure; added Hindi/English voice regression tests.

SENTRA CORE V2 | Endpoint Security and Threat Intelligence Platform

Jun 2026 - Present

- Engineered a FastAPI endpoint-security platform with 10,759 YARA rules, entropy analysis, heuristic scoring, and MITRE ATT&CK mapping.
- Connected VirusTotal, MalwareBazaar, AlienVault OTX, AbuseIPDB, and URLhaus for SHA-256/IP reputation checks with caching and Authenticode fallback.
- Evaluated 30,000+ benign Windows files at <0.1% false positives; developed React/WebSocket telemetry, SQLite history, PDF reports, and scheduled scans.

NEUROSOLE / NERVOSTEP-ML | Wearable + ML Analytics

Feb 2026 - Jun 2026

- Co-inventor on published patent application No. 202511065577; prototyped FSR/MPU6050/EMG sensor fusion with asynchronous cloud ingestion and data masking.
- Trained a GRU/1D-CNN ECG + plantar-pressure model in TensorFlow/Keras on IEEE/PhysioNet data, with SHAP and a Streamlit dashboard designed for NeuroSole data.

EXPERIENCE

VOLUNTEER IT SUPPORT | Photography Studio

Jul 2022 - Present

- Diagnosed hardware/software faults with BIOS testing, MemTest86, HDD Sentinel, and Event Viewer; isolated a RAM contact fault and resolved recurring BSOD causes.
- Reconfigured the OS/software stack, removed unwanted background processes, and maintain the workstation annually.

CERTIFICATIONS

- **Introduction to Cybersecurity** - Cisco Networking Academy
- **Cybersecurity Fundamentals** - IBM SkillsBuild
- **Digital Personal Data Protection Act, 2023**
- **Introduction to IoT and Digital Transformation** - Cisco Networking Academy
- **Design Thinking** - Infosys Springboard

LEADERSHIP AND ACHIEVEMENTS

- **Vice Chair, IEEE Student Branch, Chitkara University:** Coordinate technical events and cross-chapter collaboration; previously served as Webmaster.
- **IEEE Delhi SAC and IOC Team:** Support regional student-activity planning and execution.
- **IEEE DSSYWLC 2025:** Secured 2 DSAVERSE 2.0 sponsorships worth USD 500 and designed the sponsorship brochure.
- **Top 5 Team - Buildathon, Emergence'26 (NeuroSole).**
